Discussion and Action on Three Oaks Nature Preserve Rules and Regulations:

Superintendent Salzman provided the Rules and Regulation that were given to the Village from the developer of Three Oaks. Extensive conversation was had whether all the rules should be placed on the park sign. Superintendent Salzman would like to keep all Village owned park signs uniform. Trustee Mullett expressed concern regarding who would enforce all these proposed rules for the park.

Any Other business:

The committee discussed a possible pavilion and it's location. The committee agreed Pondview Park would be a great location for a pavilion. Extensive conversation was had about size, what type, and options on who could build the structure. The members would like to investigate a few different options on who would build this structure. They all agreed it would be a great project to approach the High School building trades with. Our Department of Public Works could do most of the project.
